Preface

In almost all countries of the world, it is considered necessary and important to include inputs relating to their religion, culture and nationalism in the educational curriculum and, thereby, develop an awareness about these subjects among the students. Unfortunately, however, in our sacred Bhāratvaśa, there is no concern about our dhārmika and cultural ethos being made a part of the educational system. While studied attempts were made, during the foreign rule, to create an apathy, to our dharma and culture, in post independence Bhārata too, no effective steps have been taken to induct, in our students, sentiments of pride and feelings of glory about our dharma and culture. The present state of decay in our national life owes itself, among other things, to this indifference alos.

There is talk today to bring about total transformation of our Bhāratīya system of education. Need is being felt to make education, value-oriented. Efforts are being made to evolve a knowledge based society with scientific temper. In order to achieve this objective, what we need to do in the first place, is to educate our students from an emotional point of view. What we need to do is to give a preeminent position to the subjects of our eternal dharma, culture, ethics and spirit of nationalism in our system of education. Our forefathers have made matchless contribution in the spheres of knowledge and sciences with the objective of proper evolution of human society. It is necessary that our students understand this and take legitimate pride and develop self-confidence on account of these contributions of our elders. it is with these feelings that we have developed this series of books. We are confident that our Vidyālayas (schools) will be positively benefited by it.

In the present booklet, different topics have been dealt with in a nutshell. While this series would prove useful for "Samśkrṭi Jñāna Paṇḍitā" (Culture Awareness Examination), We request our community of Ācāryas (teachers), to give detailed inputs, with contextual background, on these subjects so that they are motivated to undertake an in depth study there of.

Acknowledgement

It is an age of technological avalanche, soul-less materialism and cut-throat careerism. Our generation, getting education in the so-called English medium public schools, remains deprived of our cultural heritage. Therefore a great need was being felt for preparing an English version of the series of Sanskriti Bodhmālā. We wish to convey our deep and sincere gratitude to Shri Pran Nath Pankaj ji, a Chandigarh-based renowned scholar of Hindu philosophy, culture and dharma for his tireless help in bringing out the English version of the series. We feel proud of his association with this work. I do convey my thanks to Shri G.S. Mudambadithaya, President, Karnataka unit of Vidya Bharati, who alongwith his team, prepared the English version of some of the books of this series initially for using them in the schools affiliated with Vidya Bharati in Karnataka, and later permitted us for the publication of the same for using them at national level. I shall be failing in my duty if I do not convey my gratitude to Dr. Himmat Singh Sinha, retired Chairman of Dept. of Philosophy, Kurukshetra University who has devoted his precious time to editing and proof-reading work of the English scripts.

O Mother! you ride Haṁsa (swan) and are the bestower of wisdom. Give us unblemished intellect. Give us the valour and power so that we may make Bhārata, the crest-jewel of the world.

O Mother! fill our hearts with courage and character, make our lives the symbols of renunciation and austerity. Give us the boons of self-restraint, truthfulness, and love and fill us with pride in ourselves.

May we become like Lava, Kuśa, Dhrūva and Prahlāda. May we liberate humankind from fear. O Mother! may our families be full of Śiṭās, Sāvitrīs and Durgās once again.

O Mother! The rider of Haṁsa (Swan), bestower of knowledge, give us unblemished intellect.

Prayer
1. **Bhārata**: Our motherland

This Bhārata, this sacred land, with silver crested Himālaya, gushing waters of our holy rivers and the centres of our pilgrimage, is the ultimate deity for us. It is a matter of concern, and we should spare a thought to it, that due to the evil designs of the enemies of our country, our **Akhaṇḍa Bhārata** (undivided India), was divided, from time to time, into various parts. We must resolve to restore to her the glory of her undivided stature.

Greater India

*Bhārata* is the Motherland of all of us, the inhabitants of *Bhāratavarṣa*. For us, she is not just a piece of land. We worship her as the Mother of the Universe (*jagajjananī*) and salute her with reverence. It is in this context that it has been said:

She is the Mother, verily the Mother
Not just pebbles and rocks and an expanse of sand.

We therefore pay her obeisance treating her as our Motherland. The map of India that we see today is different from what it used to be in the past. We give below some information about her ancient boundaries.

- Our northern border extended up to Himālaya and *Triviṣṭapa* (Tibet), where *Kailāsa-mānasarovara* is situated. Our boundaries extended up to Nepal and Bhutan.
- In the north west, *Upgaṇasthāna* (Afghanistan) was also our part during the reign of *Candragupta Māurya* and Emperor *Aśoka*. In the age of *Mahābhārata*, it was known as the state of *Gāndhāra*. *Gāndhārī* belonged here.
- In the east of India, we have the *Brahmadeśa* (Myanmar); this too was a part of our country.
- The present-day Pakistan and Bangladesh (East Pakistan till 1972) were also the major constituents of our country.
- Śri *Lañkā*, this southern island in the *Hindu Mahāsāgara* (Indian Ocean), which washes the feet of the Mother *Bhārata*, also was our part once.
Our States – Jammu & Kashmir

This state is situated on the border of Himachal Pradesh, in northern Bhārata. It has salubrious climate. Languages spoken here are Kashmiri, Dogri, Urdu and Ladakhi. Main crops are fruits, Dry fruits and saffron. Zinc, boxite, lignite and sapphire are the minerals. Carpet and shawl manufacturing are the major industries. The state is also known for its exquisite wood carvings. Srinagar is the capital city. Cave temples of Vaishno Devi and Amarnath, Śankarācārya hill etc. are the holy centres of tourist attraction. The bounty of nature can be seen at Dal lake, Wuler lake, Gulmarg and in a great variety of flowers all around. Srinagar, Jammu and Leh have the airports in the state.

Mārtanda, Ramnagar, Kṣirbhawānī, Raghunath temple, Hazratbal etc. are the religious and tourist spots. Floating houseboats and shikaras on the lakes are captivating. Kashmir with its peaks laden with snow is called the shining crest of Mother Bhārata. Shivratri, Basant fair and Amarnath Yātrā are the famous occasions of celebration. Heaven, it seems, is here itself when you look at its natural beauty and splendour. A large chunk of Kashmir has been illegally occupied by China and Pakistan. This includes 78,114 sq. km occupied by Pakistan, 5,180 sq.km. illegally handed over by Pakistan to China and 37,555sq.km. in the Chinese possession. Indian
Parliament has resolved to take back all this forcibly occupied land which is legitimately ours.

\textit{In thy holy homage, O Mother!}

For ages and aeons, in Thy feet,
Countless flowers have been offered;
We have learnt from them
To only offer ourselves as ones.
\textit{In Thy holy homage, O Mother!}
Every speck of dust of the fort of Chittor
Breathes 'Victory to Thee'
Bless us O Mother, that to them we may add our
faltering voice.
In Thy holy homage O Mother! .....................

Some blossomed and some bloomed
And some withered ere their prime
They offered themselves, all of them, at Thy feet.
Bless us O Mother!
That we may flower fully and then, fall at Thy feet.
In Thy holy homage O Mother!.....................

5. It was the son of sage Parāṣara who codified the Vedas into four distinct parts, called the Ṛgveda, Yajurveda, Sāmaveda and Atharva Veda. By what name is he known? (Veda Vyāsa)
3. The Hindu View of Life

Īśvara (God) is the creator of this universe. That same Īśvara has been variously called Brahma (the Absolute), Paramātmā (the Universal soul), Saccidānanda (Truth, Consciousness, Bliss), Sadguru (the True Master), Akāl Purakh (the Ageless One) etc. The same God is worshipped in different forms, different ways. Service and good deeds too are God's worship. For this worship, what we need is a mind full of love, faith and devotion to Him. It is impossible to worship Him without faith and love.

Centres of Faith

Mother and the Motherland

The Mother is the foremost centre of our faith. The greatest virtue, therefore, is to bow our forehead in her feet and touch them. The dearest wealth of a son is the mother's love. Mother-worship is the true worship of God. Rightly has it been said.

"माता सर्वदेवमयः पिताः।
मातरं पितरं तस्मात् सर्वयन्तने पूजयेत्॥"

In the mother reside all tīrthas (holy places); in the father all the deities. By all means, therefore, one should worship the mother and the father.

Our Motherland, the Bhārata Mātā (Mother India) is also our mother for it nurtures us with food, water and air. In a Vedic hymn of the Atharva Veda, the seer calls the earth his mother and himself her son.

"माता भूमि: पुनोमः पुत्रिवा:"

"This earth is my mother, I am the son of this land." It is for this reason that she is called the Motherland. It is for
this reason that every Hindu, on waking up, pays obeisance to the earth before placing his foot on it.

This Motherland of ours is Goddess Lakṣmī Herself and is protected by Lord Viṣṇu. She wears the garment of ocean around her. The ring of mountains, brimming with milklike waters, are her veritable breasts, providing nourishment to us, her children. O Mother! we have to touch your sacred body with our feet. Treating us as your children, therefore, please forgive us.

We also treat Cow, Gaṅgā, Gītā and Gāyatrī as our mothers. Cow's milk, like the mother's milk, is energising. It also sharpens the intellect. Gaṅgā water lends purity and cleanliness to mind and body. Gītā spells out the goal of life and path of righteous action while Gāyatrī is the goddess that redeems us spiritually. There are, likewise, several other deities and holy persons who are the centres of our faith and devotion.

Family Feelings

The most delightful feeling is the family feeling and its first cradle is the mother's lap and her love. Parents, grandparents, aunts and uncles, younger and elder sisters and brothers are the other parts of a family. They not only are the purveyors of our needs, but are also the source of love, indulgence, affection, enjoyment and pleasure, not found anywhere else in the world. It is in the family that we grow and evolve physically, vitally emotionally, intellectually and spiritually. The father provides affection and security. Grandparents are a source of learning with pleasure and nurturance of our sense of belonging. Sisters and brothers are our loving companions and playmates. Aunts and uncles contribute to our personality development.

We inculcate qualities of mutual cooperation, self-control, decorum, generosity of mind, mutual goodwill and helpfulness in the family. We also learn in the family to respect the teachers and extend hospitality to the guests. An extension of the family is the clan, the extension of clan is society and this whole universe is but an extension of society. This family feeling is responsible for nurturing our faith in the entire universe being a big family. Rightly has it been said: “वसुधैव कुटुंबकम्” (Vasudhaiva Kutumbakam): The World is a Family.

We learn to perform noble deeds like helping the old and the elders, serving the needy and the destitute, offering food to the hungry and water to the thirsty while living in the family. We learn to discharge our duties appropriately due to our being a part of the family. The life of Śrī Rāma is the best example of family ideals.

**Our Guru-Śiṣya (Master-Disciple) tradition**

The Guru-Śiṣya tradition of our country has been a significant attribute of our social edifice. With the grace of guru, our ignorance vanishes. Guru leads the śiṣya to the path of Truth. Saint Kabir considers Guru's stature higher than God's because even God is revealed to us by the grace of Guru. He says:

> गुरु गोविन्द दोऊ खड़े काके लागू पायें।
> बलिहारी गुरु आपने गोविन्द दियो बताय॥

As Guru and Govinda (God) stood together, I am bewildered whose feet must I touch! Surely, it is the Guru for whom I shall lay down even my life for it is he who has revealed Govinda (God) to me.

Even in our ancient guru-śiṣya tradition, the greatness of guru has been extensively celebrated.

> गुरुवर्षण: गुरुदेवो महेश्वरः।
> गुरु: साक्षात्पर्वत्र तत्स्मा श्री गुरवे नमः॥

Guru is Brahmā, the creator, Guru is Viṣṇu, the protector and Guru is Lord Maheśvara (Śiva), the dissolver. Guru is the veritable Brahman. To that Guru I pay my obeisance.

In the ancient times, when learning was imparted in the Gurukulas (Gurus' hermitages) and Rṣikulas (seers' hermitages), all the śiṣyas, princes and the poor children alike, lived in those āśramas. There, along with formal
education, they also received parental love from the guru and learnt the art of living. Guru understood well the inherent potential of each of his śīṣyas and knew how each one of them, depending upon his qualities, could be moulded into a brave person, a soldier, a scholar, a saint, an emperor or a nation builder. We have here some of the examples of this guru-śiṣya tradition.

1. What was the name of Śrī Rāma’s Guru who taught the former when he was in Ayodhyā? (Guru Vasiṣṭha)

2. Which Guru taught Śrī Rāma and inspired him to kill demons to uphold dharma (righteousness)? (Viśvāmitra)

3. Who was the guru in whose hermitage Śrī Kṛṣṇa received his education? (Guru Sandīpani)

4. Who was the guru of Chhatrapati Śivājī, the founder of the Hindu empire? (Samarth Guru Ramdas)

5. Who was the dearest of Cāṇakya’s disciples? (Candragupta Māurya)

Read the following two passages and after thinking through carefully, fill the names of the śīṣyas in the blanks.

6. "I had forbidden you from drinking the milk of the cows. How then do you sustain yourself," the guru asked his śiṣya .......... . Calmly, the śiṣya, replied, "I appease my hunger with the froth that falls down when the calves suck their mothers' milk."

   (Upamanyu)

7. Suddenly the sky was overcast with deep and dark clouds and torrential downpour started. Guru Dhaumya was worried lest the water in the paddy fields should breach the field ridge and flow away. He called ................. and asked him to go to the field to
stop the outflow of water. He ran to the field. The water had indeed breached the ridge and was flowing away. When despite Śiṣya’s efforts the flow did not stop, he prostrated himself in place of the ridge. (Aruni)

अतिथि देवो भव

Be the one whom guest is a Diety

Hospitality to the guest: ‘Atithi’ (the guest) is not a person who arrives at an appointed date and time. In ancient times, when mechanical means of transport were not available, the dates and time of arrival of people were uncertain, due to bad roads or and unfavourable weather. When a guest arrived at a particular house, the members of that house considered it a privilege to receive him and offer him food and shelter even though he were unknown. Hospitality was extended to the guest who was treated like a god. Atithi, for this reason, was respected in all our families. The chief of the household, washed his (atithi’s) feet. Even today, when the word atithi is used in the sense of a guest, he is considered worthy of honour and worship in a Hindu household. The dictum, “atithi devo bhava”, is appropriate even in today’s context.

(A) Fill in the blanks with appropriate words:
1. We ............ the visiting guest with folded hands and greet him with .................... (welcome/namaste)
2. We gladly ........ his ........ and rest. (arrange for/food)
3. The arrival of a guest may cause inconvenience to the family, but we gladly ............ it and ............ him like a god. (bear/honour)
4. As he departs, we ............. him to visit again so that we could get the privilege of ............. him again. (request/serving)

The scientific basis of Hindu beliefs

Q. Why should we not eat before taking bath.

A. It has become customary in the so called modern civilized society to take tea and biscuits in the bed and breakfast/lunch before taking bath. Those oriented in the western culture may sometime ask for the rationale behind taking bath before eating.

There is a definite scientific reason for this. Physiologists tell us that we must not eat till we experience hunger naturally. Bath cools down the body and we feel fresh energy in us. Taken after that the food enzymes invigorate us.

If we eat something before taking bath, our digestive system gets busy in assimilating it. If we take bath after that, the digestive system of the body would become weak since the body temperature would have gone down. Our intestines would become weak, we would develop constipation. It would become difficult
to clear the bowels. As a result, the person would fall prey to several diseases.

Cultural Fares and Festivals

The spirit behind fares and festivals has great significance. These fares and festivals become meaningless if they are celebrated without an enthusiastic understanding of their purport. In fact, the great men of action are filled with new vitality and vigour when they celebrate these festivals.

The cultural history of India is not to be found imprinted on the pages of books but in her fares and festivals which are full of great warmth and vitality. In order to ensure perpetuity of our culture, we must understand their purport. Then, there would be joy in life, despair would be dispelled and a new hope would breathe in us.

Sūrya Pūja: It is celebrated twice a year, on the sixth day of bright fortnight of Caitra and Kārtika months.

Kāli Pūja: Performed on the Amāvasyā (the last day of the dark fortnight of moon), of Kārtika month.

Ratha Yātra: Takes place on the second day of the bright fortnight of Āṣāḍha month.

Gaṇagaura (Rajasthan): Celebrated on the third day of bright fortnight of Caitra.

रामचरितमानस (Rāmacaritamānasa)

In the fourth standard we studied couplets and quatrains from ‘Rāmacaritamānasa’ depicting the grace of Guru or the teacher. In this class we shall study some portions from Rāmacaritamānasa depicting the episode of redemption of Ahilyā from curse. Look at these portions from the ‘Bālakānda’ and understand spirit behind this depiction and memorise them by heart.

On touching the holy feet of Lord Rāma, which destroy all the sorrows, Ahilyā, the penance incarnate, came to life. On seeing Lord Raghunātha, who bestows all the pleasures on devotees, she stood before him with folded hands. Out of extreme love for the Lord, she
became impatient and ecstatic and she failed to utter even a word. The blessed Ahilyā lay in the feet of the Lord and tears of love and bliss flowed from her eyes.

Then she composed herself, recognized the lord and then secured devotion to God with the kindness of Raghupati. After this, in a very chaste voice she started singing the praise of Lord saying – Glory to the Lord! who is knowable through pure knowledge only. I am a woman and impure by nature but O’Lord! You are the purifier of the whole world, giver of all comforts to your devotees and the destroyer of Rāvana. O-Lotus eyed Lord! You are the emancipator of mankind from the fear of life and death. I have come to seek shelter in your feet. Please protect me, protect me!”

The Muni did a great favour in cursing me. I feel greatly obliged to him because of that I have been able to see the Lord' who gives salvation from this world, with my own eyes. Even Lord Śiva considers it a great boon to have seen you. O, Lord! I do not ask for any other boon but I only ask for this that, my heart should drink the
nectar from the grains of pollen of you lotus-feet like the black bee (Bhaṅwarā).

The holy feet of the Lord Rāma, where from the sacred Gangā originated, which was held by Lord Śiva in his locks, the same feet which are worshipped even by Brahmā, merciful Lord Hari you have put the same foot on my head. In this way the wife of Muni Gautama, Ahilyā, laid herself at the feet of Lord Rāma, time and again and was blessed with the most desired boon and went to the abode of her husband.

5. Our Glorious History

Cycle of Seasons and Indian Calendar

As against one, two, three or four at the most in the other countries, our country has been blessed by nature with six seasons. Mention the names of those seasons. (Spring-Vasanta, Summer-Grīṣma, Rains-Varṣā, Autumn-Śarad, Cold-Hemanta and Winter-Śiśira)

[Note: We do not have an appropriate English name for Hemanta season.]

According to the lunar calendar, the above seasons fall in the months mentioned below against their names:

1. Spring : Phālguna-Caitra
2. Summer : Vaiśākha-Jyeṣṭha
3. Rains : Āśāḍha-Śrāvaṇa
4. Autumn : Bhādrapada-Āśvina
5. Cold (Hemanta) : Kārtika-Mārgaśīrṣa
6. Winter : Pauṣā-Māgha

Every month has 30 days. The dates of these days have been named according to the ascending and descending order of the moon. The day when a single kalā (one-sixteenth of moon's diameter) of moon is visible, it is called Pratipadā, with two kalās, it is called dvitiyā. Likewise tritiyā, caturthī, pañcamī, šaṣṭhī, saptamī, aṣṭamī, navamī, daśamī, ekādaśī, dvādaśī, tryaodaśī, caturdaśī; and the day when all the kalās are visible, it is called pūrṇimā. Thus do we count the first to the fifteenth days of the bright fortnight of a month, when the moon is in ascendance. When, one by one, these kalās start diminishing during the dark fortnight of the month, the moon becomes totally invisible on the fifteenth day; that date is called amāvasyā. The names of fourteen day preceding amāvasyā are also pratipadā, dvitiyā, tritiyā etc. The fortnight when moon is in the ascending phase is called Śukla Pakṣa while during the moon in the descending phase, the fortnight is called Kṛṣṇa Pakṣa.

Thus, a lunar month is divided into two parts : 1. Kṛṣṇa Pakṣa (dark fortnight), 2. Śukla Pakṣa (bright fortnight).

A. When moon is fully shining, we have pūrṇimā
B. When moon is fully invisible, we have amāvasyā

Stories of the Martyrs

The martyrs laid down their lives to protect our Motherland. Their names too are a source of inspiration for us. Let us know about some such names. The great Hindi poet, Maithilisharan Gupt, eulogises them in one of his verses as under.

“किस भीति जीना चाहिए, किस भीति मरना चाहिए, सो सब हमें निज पूर्वजों से याद करना चाहिए।
पदबिहषण उनके वल्लभव खोज करना चाहिए, निज पूर्व गीरव-दीप को बुझाने न देना चाहिए।”

6. The World as one Family

The Indian philosophers, in search of Truth, have concluded that there is one Supreme Power that is the source of the origin of this universe. It is that power alone which manifests itself in the form of different living beings and things. Goswāmī Tulasidāsa, the crest jewel of the saint poets has, therefore, said that this entire universe consisting of animate and inanimate beings is the manifestation of God. All, therefore, deserve to be paid obeisance.

सीयाराम मय सब जग जानी। करर्तः प्रनाम जोरि जुग पानी॥

Considering this whole world as pervaded by Śrī Sītā Rāma, i.e, God and His primordial Power, I humbly bow down to them with folded hands.

2. Explain reasons:

Q. Why do we prefer white clothes in summer?
Ans. Because the white clothes regress the rays of sun, they cause less heat.

Q. Why does an ice cube float in the water?
Ans. It is lighter than water. The relative density of ice is .9 unit. Therefore, 1/10th part of it remains above water.

Q. Why do we find liquid drops on the leaves during winter?
Ans. The vapours in the air freeze due to lower temperature during winter and are seen as droplets.

Q. Why is a rainbow seen only in the morning or evening and not at noon?
Ans. For a rainbow to form, sun must make a 45° angle through the vaporised clouds. It is possible only when the sun is either in the east or in the west. Since it is atop at noon, this angle cannot form.

Q. Why does it take longer time in the hills for the food to be cooked?
Ans. In the hills the boiling point becomes lower due to the low air pressure. Water, therefore, starts boiling at lower temperature. This is the reason why it takes longer to cook the food in the hills.

**An inspiring episode of a scientist**

In his book, vision 2020, our former President A.P.J. Abdul Kalam, scientist, writes, "In my room, on a wall, there is a multicoloured calendar. This calendar has been printed in Germany. It has the pictures of satellites in space, taken from Africa and Europe. Anyone who sees these pictures is impressed. But when he is told that these pictures have been taken by an Indian Remote Sensing Satellite, his facial expression is one of disbelief. He has to be shown the grateful acknowledgement of Indian Remote Sensing Satellite, which the publishers have printed at the bottom of the calendar.

We should be proud of our science and scientists.

"I will give you a talisman. Whenever you are in doubt or when the self becomes too much with you, apply the following test:
Recall the face of the poorest and the weakest man whom you may have seen and ask yourself if the step you contemplate is going to be of any use to him. Will he gain anything by it? Will it restore him to a control over his own life and destiny? In other words, will it lead to Swaraj for the hungry and spiritually starving millions? Then you will find your doubts and yourself melting away."
